

# Accounting Summit Day One

September 20th, 2023 MAIN STAGE

**MAIN STAGE**

**08:30 Welcome**

The doors open at 8.30 am - so you can start networking over your first coffee or find yourself a good seat.

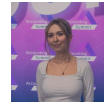

**MAIN STAGE**

**09:15 Welcome**

Event opening and welcome from organizers

**Inken Meyer-Hess**  
*Accounting Summit*

**Eli Tracz**  
*Accounting Summit*

**Celina Wiechmann**  
*Accounting Summit*

**MAIN STAGE**

PRESENTATION

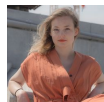

**09:30 Think Finance different ... disrupt historic principles**

How might we stay in game? What do we need to achieve digital transformation? What can i utilize our basics to drive innovation? How might we embrace change to take strategic advantage? How might we (Accounting) create impact for our company?

**Christian Brumm**  
*Zalando*

*Host*

**Inken März**  
*Accounting Summit*  
*Moderation*

**MAIN STAGE**

**10:00 Coffee break**

Enjoy some coffee and cake and make new contacts with the visitors and exhibitors of the Accounting Summit.

## MAIN STAGE

 PRESENTATION

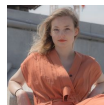

### 10:30 Company cards for more efficiency: Why no-card policy is a mistake

For decades, many companies have had a long-outdated attitude towards the use of company cards by their employees. In this session, an expert in digitizing finance processes will explain why these companies are making a mistake. You'll learn the benefits in terms of security, cost control and increased efficiency for those who rely on an integrated solution of expense management software and smart corporate cards. And you'll find out how digital spend management can prepare your company for future ESG policies.

**Manuel Holzer**  
*Payhawk*

*Host*

**Inken März**  
*Accounting Summit*  
*Moderation*

## MAIN STAGE

 PANEL  
DISCUSSION

### 11:00 ESG Reporting - Challenges and Opportunities

**Dr. Dirk Guntermann**  
*Hannover Rück-Gruppe*

**Katharina Herzog**  
*HUGO BOSS*

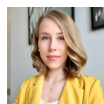

**Stefan Köhler**  
*Cyberport*

**Tobias Riffel**  
*Lucanet*

*Host*

**Jil Rohrbeck**  
*GIANT*

## MAIN STAGE

PANEL  
DISCUSSION

### 11:45 Skill Development & Enabling der Finance & Controlling Teams

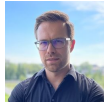

Which success-critical skills do teams need now and in the future? How can these skills be developed? How must the accountant of the future be positioned? How can finance leads use storytelling to achieve this?

**André Hiesl**  
*Serviceplan Group*

**Dr. Richard Strate**  
*Gewoba*

**Steffen Pyka**  
*Trivago*

**Franziska Teutscher**  
*Snipes*

**Carina Denker**  
*Douglas*

**Harry Langenfeld**  
*FloQast*

Host

**Stephanie Bräuchle**  
*DKMS Group*

## MAIN STAGE

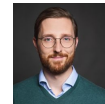

### 12:30 Lunch break

## MAIN STAGE

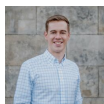

### 13:45 Accounting Summit Startup Awards

**Niclas Storz**  
*Tidely*

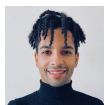

**Steffen Minier**  
*Taxmaro*

**Sebastian Wengryn**  
*ContractHero*

**Dr. Siebelt Habben**  
*DESTOreport*

**David Weber**

**Jens Quadbeck**  
*Finmatics*

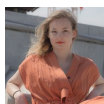

**Thomas Prokopp**  
*Airrange*

**Stephan Schuller**  
*FOMA*

Host

**Inken März**  
*Accounting Summit  
Moderation*

## MAIN STAGE

 PANEL  
DISCUSSION

### 14:30 Panel - Shared Service Center

What needs to be considered when setting up a shared service center?  
Site selection, planning and co.

**Susanne Ollmann**  
*Villeroy & Boch*

**Melanie Sorg**  
*STARK*

*Host*

**Andreas Schmelzer**  
*Porsche Holding*

## MAIN STAGE

### 15:15 Coffee break

Enjoy some coffee and cake and make new contacts with the visitors and exhibitors of the Accounting Summit.

## MAIN STAGE

 PRESENTATION

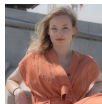

### 16:00 New Work, New World: How innovative working methods are changing accounting

In a rapidly changing business world, it is imperative that companies adapt and implement innovative ways of working to remain competitive. The implementation of New Work in my area of responsibility demonstrates how a traditional company can transform the way employees work in a "traditional department" while achieving the goal of the "Best Workplace to Be." In my presentation, I will explain how the implementation of New Work has helped to make the workplace more attractive and how this has become a competitive advantage for us.

**Dr. Christian Cobbers**  
*Henkel*

*Host*

**Inken März**  
*Accounting Summit  
Moderation*

## MAIN STAGE

 PANEL  
DISCUSSION

### 16:30 Impact Accounting - how Accounting can be sustainable

How to switch over to sustainable accounting and be efficient at the same time.

**Dennis Aschoff**  
*Eitner Security*

**Veronika von Heise-Rotenburg**  
*everphone*

**Bettina Fischer**  
*Hivebuy*

*Host*

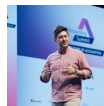

**Jana Scharfschwerdt**  
*somea Partners*

## MAIN STAGE

 PRESENTATION

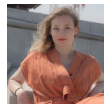

### 17:15 From Start Up- to Corporate Accounting

What challenges does accounting face in a growing company? A field report that sheds light on the effects of growth and corporate goals on accounting and presents its supporting role for corporate development.

**Fatih Esir**  
*Free Now*

*Host*

**Inken März**  
*Accounting Summit  
Moderation*

## MAIN STAGE

### 17:45 Accounting Summit Awards Ceremony 2023

Vote for the most inspiring, charismatic or innovative speakers in our app. The top three speakers on each stage will be presented with a Accounting Summit Speaker Award.  
App-Download

## MAIN STAGE

 PRESENTATION

#### 10:30 The best of greenfield and brownfield - optimize your financial processes sustainably with the BLUEFIELD™ approach

The transformation to SAP S/4HANA enables you to lay the foundation for an agile and future-proof corporate world. As a happy medium, the BLUEFIELD™ approach from our partner SNP combines the advantages of greenfield and brownfield. This enables you to retain selected processes and settings while cleansing obsolete data. Learn more about how selective data transformation can be used to migrate functions and data that are still required for your financial processes in a single step, while flexibly adding new requirements. As a result, IT landscapes can be restructured and modernized much faster, and data can be transferred securely to new systems or cloud environments. Let's move your digital finance forward together!

 PRESENTATION

### 11:00 **Navigate Your Growth Journey with Workday Finance: A Look at Staffbase**

In this session, we'll explore how Staffbase, a leading employee communications cloud and intranet, utilizes Workday Finance to support its rapid growth and global expansion. As Staffbase transitioned from a startup to a "unicorn" company with more than 800 employees worldwide, Workday Finance has been instrumental in ensuring efficient financial operations. Our discussion will highlight how Workday Finance supports Staffbase's mergers and acquisitions activities, facilitates internal communication, and contributes to the company's continuous growth strategy. Join us to understand the role of Workday Finance in Staffbase's successful journey and gather insights that could help your own organization's growth trajectory.

## MONT BLANC MASTERCLASSES

 PRESENTATION

### 14:00 **How the Lapp Group implemented a modern, integrated analysis and planning application for financial and operational control with the help of Apliqo.**

The Lapp Group is an internationally active, family-run company for which the reporting and planning process is an important management tool. Within these processes, there have been different challenges in the past. In this masterclass you will learn from the person responsible for the project how Lapp overcame these challenges by using Apliqo. Challenges: Structure - lack of a unified ERP system and different levels of granularity, complicating the analysis and planning process. Reporting - lack of global standard reporting (tool), encourages sending static reports via Excel or pdf. Planning - group-wide planning on Excel, increases the number of possible errors and the turnaround time for planning After a lengthy evaluation process, the Lapp Group has significantly improved the reporting and planning process with the Apliqo FPM solution developed by Cubewise. Solutions A database that serves as the basis for financial and operational data A reporting system that provides any analysis for P&L, balance sheet and cash flow, as well as operational analysis areas (sales, margins, headcount, price/quantity, transfer prices) An integrated and driver-based planning solution (P&L, balance sheet, cash flow) that moves the company away from Excel and simplifies the planning process A modern web front-end that enables users to take the analysis and planning process to another level.

### 15:00 The job as an accountant in times of ChatGPT and artificial intelligence

What is the future? More tools and fewer professionals? The market changes, trends change, people change, but the core and fundamentals of accounting remain. What are the requirements in today's world? What do accountants, the market, the companies need? In the midst of the "War of Accounting Talents", DONE!Financials believes that professional know-how and the right experts are more important than ever, even in times of ChatGPT and artificial intelligence. After all, any tool can only be as good as the person using it.

## MONT BLANC MASTERCLASSES

 PRESENTATION

### 16:00 **Next Level Finance Automation: The Future Path to an Automated Closing Process**

The primary responsibility of finance is to produce reliable and accurate financial reports. Manual tasks and outdated, fragmented processes hinder already busy finance teams from focusing on their core responsibilities. This results in opaque, error-prone, and non-scalable processes that many companies struggle with. A highly automated close process helps increase transparency and accuracy while reducing costs and risk. Are you also struggling with the above issues, then attend our masterclass and learn: - What to look for in your transformation project (Dos&Dont's). - More about best practice finance transformation journeys - Where you can identify automation potential

### MATTERHORN MASTERCLASSES

#### 08:30 Welcome

The doors open at 8.30 am - so you can start networking over your first coffee or find yourself a good seat.

### MATTERHORN MASTERCLASSES

PRESENTATION

#### 10:00 The e-invoicing obligation in Germany and Europe is coming! How do you prepare your company until 2025?

The German government is planning a national electronic reporting system to combat VAT fraud by 2025. There is already a discussion paper on this existing since April, in which the Federal Ministry of Finance (BMF) published its ideas on the introduction of a mandatory e-invoice for domestic B2B sales. Effectively, this means there will be a mandatory e-invoicing requirement from 2025, which will affect all companies in the B2B environment - whether large or small. In Quadient's Masterclass, you will receive a comprehensive overview of the topic, the current state of discussions, plus helpful tips on how to prepare your invoicing process early for the upcoming changes.

**10:30 How Transformer AI technology is revolutionizing processes in the back office (and how you can benefit directly from it).**

The latest advances in AI in the field of language understanding and image interpretation are turning work in the back office upside down and offer unimagined opportunities for your company as well. In this presentation, Dr. Ulrich Erxleben explains how Deep Learning can be used to fully automate typical processes such as processing incoming invoices or accepting orders from internal and cross-company data. The following questions will be explained in more detail: How does generative AI increase process efficiency? What type of AI models provide the best results for FinOps use cases? Can you teach generative AI models to manage your specific workflow processes? How long will it take to train them? How can you get started with generative AI with your current IT setup? How can generative AI be implemented from document capture to posting? To put theory into practice, a "live demo" will demonstrate how to process an accounts payable invoice using an everyday use case. Other use cases will be explained and supported with case studies. The presentation is designed for business leaders, shared service center managers, CTOs and CFOs who want to learn more about the latest developments in voice AI technology and the benefits of back-office automation.

### 16:00 The road to the first sustainability report: from the field

Many companies are currently having to deal with the conception and implementation of a sustainability report for the first time due to new regulations. How can they best meet the challenge, and what potential stumbling blocks are there to consider? Nexperia, with the support of Mazars in Germany, recently embarked on this journey and published its first sustainability report. In our masterclass, we provide insights into this process: starting with the project setup, project participants involved, conception of the report content (incl. materiality analysis), status quo of the data situation as well as implementation of measures and initiatives, through gap analyses, technology selection and technology-supported report creation, to the published sustainability report.
